## WORK EXPERIENCE

Rapsol Technologies Pvt Ltd

### Web Developer

Feb 2025 - Present

- Designed, developed, and implemented new website features to enhance functionality and overall user experience.
- Delivered responsive, client-focused static websites using modern web technologies.
- Optimized UI/UX components and improved website performance for faster load times and better accessibility.
- Collaborated with cross-functional teams to integrate tools, streamline workflows, and ensure high-quality deliverables.

## SKILLS

**Frontend:** HTML, CSS, JavaScript, React, Bootstrap, TailwindCSS

**Computer:** Node.js, Express.js, Java (Spring Boot – basic)

**Language:** MongoDB, PostgreSQL, Prisma ORM

**Version Control & Tools:** Git, GitHub, Postman

**Security & Utilities:** JWT Authentication, Bcrypt, Helmet

## PROJECTS

### Spend Log

- Built a full-stack expense tracking app with secure authentication (register, login, email verification, password reset).
- Designed features for expense/income management, budgeting, and smart filters for easy tracking.
- Integrated Chart.js to generate interactive visual reports and added CSV/PDF export options.
- Delivered a responsive UI with dark mode, ensuring accessibility and modern user experience.

### ThiraiView

- Full-stack movie platform with JWT authentication, email verification, and user profiles.
- Features for movie management, including add/view/update/delete, poster uploads, and search/filter options.
- Review system with add/edit/delete, likes, and watchlist for tracking watched/unwatched movies.
- Responsive UI built with React (Vite) & TailwindCSS, backed by Node.js, Express, Prisma, PostgreSQL.
